About This Scoring Guide

The *Scoring Guide for Candidates* is a comprehensive overview of the National Board's scoring process. It is essential reading for anyone pursuing National Board Certification®. Together the two parts of the *Scoring Guide for Candidates* will help you on your path toward becoming a National Board Certified Teacher® (NBCT®).

Part 1: Understanding and Interpreting Your Scores

Part 1 guides you through the scoring process, providing you with the tools to understand and interpret your scores. Applicable to all certificate areas, **Part 1** includes crucial information about the role of the National Board Standards, which represent a professional consensus on the critical aspects of practice that distinguish accomplished teachers in the field and function as the foundation of each assessment.

Additionally, you will find information in **Part 1** about NBPTS® assessors—the qualified professionals who assign your scores. You will also find the score ranges, which will allow you to match your score to the appropriate level of performance. **Part 1** also discusses the National Board's retake policies, relevant to you if you do not meet the performance standard on your initial certification attempt. In **Part 1** you will learn how to interpret your individual scores and, if necessary, develop strategies to improve them.

Part 2: Understanding and Applying the Scoring Criteria

Part 2 provides the scoring rubrics for each portfolio entry and assessment center exercise in your certificate area, guiding you as you develop your portfolio entries and prepare for your assessment center exercises. The rubrics are presented here in a bulleted format to highlight the vital information contained in each. Reading the scoring rubrics will help you think about ways to strengthen your practice and best demonstrate your teaching expertise. The rubrics are the tool that assessors use to determine the appropriate scores for performance in your field.

The NBPTS Web site provides additional documents to assist you in the process of developing your portfolio entries and evaluating your performance. One such document is the [Evaluation of Evidence Guide](#). Each certificate-specific guide corresponds to an individual portfolio entry for your certificate area, and each includes questions that shape how assessors view the evidence you submit.

Other resources that will help you prepare for your assessment include the following certificate-specific documents, all of which are available online at www.boardcertifiedteachers.org:

- *Assessment at a Glance*
- Standards for Accomplished Teaching
- *Portfolio Instructions*

Part 2:

Understanding and Applying the Scoring Criteria

Part 2: Understanding and Applying the Scoring Criteria presents the scoring rubrics for your certificate area. You should read the rubrics while developing your portfolio entries and preparing for your assessment center exercises. These rubrics, which are derived from the Standards, define the levels of accomplished teaching that you must demonstrate. This reference information will help you understand how the rubrics guide assessors in evaluating your work.

Each rubric begins with an overarching statement that summarizes the quality of performance at each of the rubric levels. For example, the overarching statement for a Level 4 rubric might read: "The Level 4 performance provides *clear, consistent, and convincing* evidence of the teacher's knowledge and practice in his or her field." This precise language is used to distinguish between the four levels of the score scale. The body of the rubric consists of statements organized in a manner that reflects the order of tasks or questions within the entry or exercise. If you are asked to discuss your goals in the first response, for example, then the quality statement about goals will be stated at the beginning of the body of the rubric.

One way to understand the meaning of the entire rubric and how it relates to the quality of a performance is to read across the rubric. You can do this by reading the first sentence for Level 4, the first sentence for Level 3, and so on. This reveals the gradations of quality delineated for each feature of the response. A careful reading of the rubrics is an invaluable step in helping you successfully develop your portfolio entries and prepare for your assessment center exercises.

Your portfolio entries and assessment center exercises are scored holistically. To score holistically, an assessor must look at the entry and exercise for its overall quality and evaluate the work as a whole. The response may have characteristics of adjacent performance levels, but the assessor must assign the score that best describes the work as a whole. When scoring, an assessor reads completely, and views, when applicable, the entire entry and exercise before assigning a score. An assessor should read and review supportively, looking for and rewarding those things done well in the entry or exercise.

For more information about understanding and interpreting your scores, please refer to **Part 1**.

Scoring Rubrics for Portfolio Entries

Entry 1: Assessment as a Tool for Unit Planning

In this entry: You submit two assessments for each of two students, as well as a Written Commentary that provides an overview of your unit plan and contextualizes the assessments as they are used to inform your planning. You describe the implementation of the unit plan and any adjustments you made to your teaching during the implementation. You discuss how the students' assessments, as well as their linguistic and cultural diversity, informed your planning.

THE LEVEL 4 performance provides *clear, consistent, and convincing* evidence that the teacher is able to plan and implement a unit of instruction for linguistically and culturally diverse learners, and to administer and interpret appropriate assessments as a means to inform planning.

The Level 4 performance provides *clear, consistent, and convincing* evidence:

- that the teacher sets high, worthwhile, and appropriate language and content goals for student learning based on a detailed knowledge of students' skills, aspirations, and values, as well as their cultural and linguistic history.
- that the teacher recognizes the students' cultural diversity and plans ways for the students to actively participate in the culture of the new language.
- of the teacher's ability to employ appropriate assessment measures in determining the students' language development needs.
- that the teacher plans instruction, which reflects consideration of the unique learning needs of the students and shows appropriate and challenging expectations while integrating subject matter with reading, writing, listening, speaking, and visual literacy within the established goals.
- that the teacher uses instructional resources, including media and/or technological resources, to facilitate language learning.
- of the teacher's ability to determine when to give feedback to students and when given, to make it supportive and constructive feedback that enhances student learning.
- that the teacher accurately describes, analyzes, and evaluates student work, and appropriately applies knowledge of language acquisition and development to future instruction.
- that the teacher engages in reflective thinking whereby she or he describes her or his practice accurately, analyzes it thoughtfully, and reflects on its implications and significance for future instruction.

Overall, there is *clear, consistent, and convincing* evidence of the teacher's ability to plan and implement a unit of instruction for linguistically and culturally diverse learners, and to administer and interpret appropriate assessments as a means to inform planning.

THE LEVEL 3 performance provides *clear* evidence that the teacher is able to plan and implement a unit of instruction for linguistically and culturally diverse learners, and to administer and interpret appropriate assessments as a means to inform planning.

The Level 3 performance provides *clear* evidence:

- that the teacher sets high, worthwhile, and appropriate language and content goals for student learning based on a detailed knowledge of students' skills, aspirations, and values as well as their cultural and linguistic history.
- that the teacher recognizes the students' cultural diversity and plans ways for the students to actively participate in the culture of the new language.
- of the teacher's ability to employ appropriate assessment measures in determining the students' language development needs.
- that the teacher plans instruction, which reflects consideration of the unique learning needs of the students and shows appropriate and challenging expectations while integrating subject matter with reading, writing, listening, speaking, and visual literacy within the established goals.
- that the teacher uses instructional resources, including media and/or technological resources, to facilitate language learning.
- of the teacher's ability to determine when to give feedback to students and when given, to make it supportive and constructive feedback that enhances student learning.
- that the teacher accurately describes, analyzes, and evaluates student work, and appropriately applies knowledge of language acquisition and development to future instruction.
- that the teacher engages in reflective thinking whereby she or he describes her or his practice accurately, analyzes it thoughtfully, and reflects on its implications and significance for future instruction.

A Level 3 performance may show imbalance in the analysis and/or evidence presented for each student or assignment. One part of the response may be more indicative of accomplished practice than another, but overall, there is *clear* evidence of the teacher's ability to plan and implement a unit of instruction for linguistically and culturally diverse learners, and to administer and interpret appropriate assessments as a means to inform planning.

THE LEVEL 2 performance provides *limited* evidence that the teacher is able to plan and implement a unit of instruction for linguistically and culturally diverse learners, and to administer and interpret appropriate assessments as a means to inform planning.

The Level 2 performance provides *limited* evidence:

- that the teacher sets high, worthwhile, and appropriate language and content goals for student learning based on a detailed knowledge of students' skills, aspirations, and values as well as their cultural and linguistic history.
- that the teacher recognizes the students' cultural diversity and plans ways for the students to actively participate in the culture of the new language.
- of the teacher's ability to employ appropriate assessment measures in determining the students' language development needs.
- that the teacher plans instruction, which reflects consideration of the unique learning needs of the students and which shows appropriate expectations while integrating subject matter with reading, writing, listening, speaking, and visual literacy within the established goals.
- that the teacher uses instructional resources, including media and/or technological resources to facilitate language learning.
- of the teacher's ability to determine when to give feedback to students and when given, to make it supportive and constructive feedback that enhances student learning.
- that the teacher accurately describes, analyzes, and evaluates student work, and appropriately applies knowledge of language acquisition and development to future instruction.
- that the teacher engages in reflective thinking whereby she or he describes her or his practice accurately, analyzes it thoughtfully, and reflects on its implications and significance for future instruction.

The Level 2 performance may be characterized by evidence that hints at accomplished practice, but overall, there is *limited* evidence of the teacher's ability to plan and implement a unit of instruction for linguistically and culturally diverse learners, and to administer and interpret appropriate assessments as a means to inform her or his planning.

THE LEVEL 1 performance provides *little or no* evidence that the teacher is able to plan and implement a unit of instruction for linguistically and culturally diverse learners, and to administer and interpret appropriate assessments as a means to inform planning.

The Level 1 performance provides *little or no* evidence:

- that the teacher sets high, worthwhile, and appropriate language and content goals for student learning based on a detailed knowledge of students' skills, aspirations, and values as well as their cultural and linguistic history.
- that the teacher recognizes the students' cultural diversity and plans ways for the students to actively participate in the culture of the new language.
- of the teacher's ability to employ appropriate assessment measures in determining the students' language development needs.
- of the teacher's ability to plan instruction, which reflects consideration of the unique learning needs of the students and which shows appropriate and challenging expectations while integrating subject matter with reading, writing, listening, speaking, and visual literacy within the established goals.
- that the teacher uses instructional resources, including media and/or technological resources, to facilitate language learning.
- of the teacher's ability to determine when to give feedback to students and when given, to make it supportive and constructive feedback that enhances student learning.
- that the teacher accurately describes, analyzes, and evaluates student work, and appropriately applies knowledge of language acquisition and development to future instruction.
- that the teacher engages in reflective thinking whereby she or he describes her or his practice accurately, analyzes it thoughtfully, and reflects on its implications and significance for future instruction.

Overall, there is *little or no* evidence of the teacher's ability to plan and implement a unit of instruction for linguistically and culturally diverse learners, and to administer and interpret appropriate assessments as a means to inform her or his planning.

Entry 4: Documented Accomplishments: Contributions to Student Learning

In this entry: You illustrate your partnerships with students' families and community, and your development as a learner and collaborator with other professionals by submitting descriptions and documentation of your activities and accomplishments in those areas. Your description must make the connection between each accomplishment and its impact on student learning.

THE LEVEL 4 performance provides *clear, consistent, and convincing* evidence of the teacher's ability to impact student learning through work with colleagues, professionals, families, and the community, and as a learner.

The Level 4 performance provides *clear, consistent, and convincing* evidence:

- that the teacher treats parents and other interested adults as valued partners in the child's education, and uses thoughtfully chosen, appropriate strategies for reaching out to the families of his or her students. The selected strategies may or may not be original to the teacher, but they are implemented with skill and enthusiasm and are effective in engaging parents and other interested adults in communication that is highly interactive, fostering extensive two-way dialogue focused primarily on substantive teaching and learning issues and individual student progress.
- that the teacher facilitates ongoing, mutually beneficial communications between students and the wider community in a way that enhances teaching and learning.
- that the teacher has strengthened his or her own teaching practice through conscious and deliberate professional development to strengthen knowledge, skills, and abilities in areas that are relevant to his or her teaching and learning context for the purpose of impacting student learning.
- that the teacher has worked collaboratively with colleagues to improve teaching and learning, either within the school or in the wider professional community.
- that the teacher has shared his or her expertise in a leadership role with other educators through facilitating the professional development of other teachers, improving instructional practices, or advocating for positive change in educational policy.
- that the teacher's work outside the classroom has been driven by a conscious and deliberate focus on improving teaching and learning, as opposed to merely fulfilling job requirements. The descriptions and documentation provide a rich, detailed, coherent view of a teacher who has made an impact on student learning through work with other colleagues, professionals, families, and the community, and as a learner.
- that the teacher accurately analyzes and thoughtfully reflects on the significance of all accomplishments taken together, and can appropriately plan for future opportunities to impact student learning.

Overall, there is *clear, consistent, and convincing* evidence of the teacher's ability to impact student learning through work with colleagues, professionals, families, and the community, and as a learner.

THE LEVEL 3 performance provides *clear* evidence of the teacher's ability to impact student learning through work with colleagues, professionals, families, and the community, and as a learner.

The Level 3 performance provides *clear* evidence:

- that the teacher treats parents and other interested adults as valued partners in the child's education, and uses appropriate strategies for reaching out to the families of his or her students. The selected strategies may or may not be original to the teacher, but they are effective in engaging parents and other interested adults in communication that is interactive, fostering two-way dialogue focused primarily on substantive teaching and learning issues and individual student progress.
- that the teacher facilitates ongoing, mutually beneficial communications between students and the wider community in a way that enhances teaching and learning.
- that the teacher has strengthened his or her own teaching practice through conscious and deliberate professional development to strengthen knowledge, skills, and abilities in areas that are relevant to his or her teaching and learning context.
- that the teacher has worked with colleagues as a partner or collaborator to improve teaching and learning, either within the school or in a larger professional context, such as within a professional organization.
- that the teacher has shared his or her expertise in a leadership role with other educators through facilitating the professional development of other teachers, improving instructional practices, or advocating for positive changes in educational policy.
- that the teacher's work outside the classroom has been driven by a conscious focus on improving teaching and learning, as opposed to merely fulfilling job requirements. The descriptions and evidence provide a coherent view of a teacher who has made an impact on student learning through work with other colleagues, professionals, families, and the community, and as a learner.
- that the teacher accurately analyzes and thoughtfully reflects on the significance of all accomplishments taken together, and can appropriately plan for future opportunities to impact student learning.

Overall, there is *clear* evidence of the teacher's ability to impact student learning through work with colleagues, professionals, families, and the community, and as a learner.

THE LEVEL 2 performance provides *limited* evidence of the teacher’s ability to impact student learning through work with colleagues, professionals, families, and the community, and as a learner.

The Level 2 performance provides *limited* evidence:

- that the teacher treats parents and other interested adults as valued partners in the child’s education, and uses appropriate strategies for reaching out to the families of his or her students. The rationale for the selected strategies may be a bit vague and/or there may be limited evidence that the strategies are effective in engaging parents and other interested adults. There may be evidence that though the strategies work with many families, some families are not being fully engaged.
- that the communications with families are focused on substantive teaching and learning issues. Instead, many of the communications may be dominated by procedural issues, behavior, or disciplinary matters, or the communications may not show much differentiation between individual students, with the same communication going to all families.
- that the communications with families are interactive. There may be frequent communications home, but these may rely primarily on one-way media, such as notes home or newsletters. The evidence may suggest that parents are well informed about what is going on in the classroom, but there is limited evidence of two-way dialogue with families.
- regarding meaningful communications between the students and the wider community for the purpose of enhancing teaching and learning.
- that the teacher has strengthened his or her own teaching practice through professional development; even if the teacher has engaged in extensive professional development activities, it may be unclear how these activities relate to the knowledge, skills, and abilities that are relevant to his or her teaching and learning context.
- that the teacher has shared what he or she has learned with colleagues by working with them in a role as a partner, collaborator, or leader.

The evidence in a Level 2 performance may indicate that the teacher is an accomplished practitioner within his or her own classroom, but that he or she has not shared his or her expertise with others in a significant way through professional development of other teachers, improving instructional practices, or advocating for positive change in educational policy.

The evidence may suggest that the preponderance of the teacher’s activities outside of the classroom has been to fulfill job requirements, as opposed to being a conscious and deliberate effort to impact student learning and improve teaching and learning.

- that the teacher analyzes and reflects on the significance of all accomplishments taken together, and can appropriately plan for future opportunities to impact student learning.

The Level 2 performance may be characterized by evidence that occasionally hints at accomplished practice, but overall, there is *limited* evidence of the teacher’s ability to impact student learning through work with colleagues, professionals, families, and the community, and as a learner.

THE LEVEL 1 performance provides *little or no* evidence of the teacher’s ability to impact student learning through work with colleagues, professionals, families, and the community, and as a learner.

The Level 1 performance provides *little or no* evidence:

- that the teacher treats parents and other interested adults as partners in the child’s education, and uses appropriate strategies for reaching out to the families of his or her students. The rationale for the selected strategies may be very vague, unclear, or absent.
- that the strategies are effective in engaging parents and other interested adults. There may be evidence that some families are overlooked or ignored. There is little or no evidence that the communications with families are focused on substantive teaching and learning issues. Instead, the communications are taken up almost exclusively by procedural issues, behavior, or disciplinary matters.
- that the communications with families are interactive. Communications with families are entirely one-way and/or infrequent. Parents may not be kept informed about what is going on in the classroom. If evidence regarding outreach to the wider community is present, the connections may promote trivial interactions with little impact on student learning.

The Level 1 performance may contain negative or disparaging comments about parents, community, or professionals with little or no evidence of the teacher’s efforts to improve the situation.

- that the teacher has strengthened his or her own teaching practice through professional development. If professional development activities are cited, they may be very sketchy or weak or of little or no relevance to the teacher’s context.
- that the teacher has worked with colleagues as a partner, collaborator, or leader. If school projects are cited, there may be little or no evidence of their impact on teaching and learning, or the teacher’s role in the project may be very unclear or very passive.

There may be evidence that the teacher is an accomplished practitioner within his or her own classroom, but there is little or no evidence that he or she has shared his or her expertise with others.

The evidence may suggest that the teacher’s work outside of the classroom has been carried out solely to fulfill job requirements, as opposed to being a conscious and deliberate effort to improve teaching and learning.

- that the teacher analyzes and reflects on the significance of all accomplishments taken together, and can appropriately plan for future opportunities to impact student learning.

Overall, there is *little or no* evidence of the teacher’s ability to impact student learning through work with colleagues, professionals, families, and the community, and as a learner.
